Our Guarantee

We value your trust and the opportunity to service your property: Your satisfaction is guaranteed or you get your last service charge refunded, *and* we fix the problem. A simple phone call (or email, or letter, if you prefer) is all that is needed to take advantage of our guarantee.

Our Ecological Commitment

At our offices, on the road, we commit to reducing the amount of resources it takes to bring solutions to you. That means eliminating paper use wherever possible, cutting electric and fuel consumption. That means designing service routes that are as efficient as possible and using the most fuel efficient service vehicles with alternative fuels if available. It also means making your green life simpler, by offering a simple fluorescent bulb disposal program and by setting up your family's composting program. Whether we are in our office or your home or business, our commitment is to save resources and source supplies locally.

Silent Referral Program

We depend on your positive experience being shared with your friends and neighbors to help our business grow. We have a referral program to reward our advocates. If you mention our service to your neighbor, just send an email to: silentreferral@greenhow.com with the neighbor's name and street name. (Don't worry, we promise not to contact any name you give us.) If that person contacts us and purchases a service, we will give you a choice of a \$50 account credit, \$50 American Express Gift Card, OR \$50 donation to The Nature Conservancy in your name to thank you for thinking of us.
